

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## NOTE TO THE ALUMNI.

The delay in the publication of the *Register* has been due to the difficulty of securing the necessary information. The book was planned two years ago, but it is only recently that sufficient material has been collected to make anything like completeness possible. As it is, the *Register* is fairly complete, and as free from errors as we have been able to make it.

For convenience of reference, the purely alphabetical arrangement of the names has been modified by an arrangement according to the year of graduation. Thus, all names beginning with A are printed in a body, but so arranged that those belonging to the same year are grouped together. These groups begin with 1892 and follow one another in chronological order. Addresses which are starred (\*) indicate that no report has been received from the person in question, but that the information given concerning him is believed by the editors to be correct.

For the sake of completeness, the names of the graduating class of the present year have been inserted. It should be understood, however, that the *Register* is printed before these degrees are conferred, so that the Class of '99 appears simply in the character of prospective Alumni.

The editors wish to urge upon the Alumni the importance of reporting changes of address and other matters of interest. This information is necessary for communication and for any subsequent edition of the *Register*. Finally, the editors, for themselves and on behalf of the Executive Committee, express the hope that the *Register*, even in its present form, will be found useful in many respects, and that it will be a new tie to bind the Alumni together, and to bring them into closer relationship with our beloved *Alma Mater*.

## CONSTITUTION OF THE ALUMNI ASSOCIATION.

Organized June 15, 1892.

In order to promote the interests of the University, to secure unity among its graduates, and to foster an attachment to our *Alma Mater*, we do hereby constitute ourselves an association to be known as the Alumni Association of the Leland Stanford Junior University.

1. All persons who have received a degree from the Leland Stanford Junior University are members of this Association.

2. All members of the Faculty are honorary members of this Association.

3. The officers of this Association shall be a President; one Vice-President from each successive group of five classes, provided that when the last group shall number three classes it shall thereafter be entitled to a Vice-President; a Secretary; and a Treasurer.

4. There shall be an Executive Committee, to consist of the following persons: the Secretary and Treasurer of the Association, and three other persons chosen by the Association, one of whom shall be designated as Chairman of the Committee.

5. It shall be the duty of the Executive Committee to arrange the programmes for Alumni Day and other public occasions; to regulate the finances of the Association; to perform such other duties as may be imposed upon them; and to attend to all business of the Association not otherwise provided for.

6. The President shall be *ex-officio* a member of all committees. At each annual business meeting he shall appoint a committee of two persons to audit the Treasurer's accounts.

7. The officers and the Executive Committee shall be elected by ballot at the annual business meeting to be held on Alumni Day, a majority of all votes cast being necessary for election.

8. Any proposition to alter or amend these Articles of Association must be made at a regular meeting, and have the assent of two-thirds of the members present.
